

OGHENERUKEVWE UJARA

CUSTOMER SUPPORT & OPERATIONS SPECIALIST

Lagos, Nigeria | +234 802 639 8829 | rukkyujara@gmail.com | linkedin.com/in/rhukhi | Available across all time zones

ABOUT ME

Senior Customer Support & Operations professional with experience helping SaaS and e-commerce companies scale their support without scaling headcount. I specialize in API troubleshooting (Shopify, REST), workflow automation (Power Automate), and building remote support teams.

CORE COMPETENCIES

Customer Success & Account Management: B2B Relationship Management, Global Merchant Onboarding, Churn Mitigation, Product Feedback Loops, Customer Retention

Support Operations: SLA & KPI Management, CSAT/NPS Optimization, Ticket Lifecycle Management, Conflict De-escalation, First Contact Resolution

Technical Operations: API Troubleshooting (REST), Workflow Automation, Power Automate, Root Cause Analysis, Technical Translation

Team Leadership & Enablement: SOP Development, Training Program Design, Knowledge Base Architecture, Skill Gap Assessment, Mentoring

PROFESSIONAL EXPERIENCE

Customer Success Associate — *GemCommerce*

07/2025 – 04/2026 | Remote

- **High-Volume Support:** Managed a technical queue of 180+ tickets monthly, consistently maintaining a 93% CSAT score while independently resolving advanced technical issues for global merchants.
- **Technical Troubleshooting:** Managed comprehensive data tracking and spreadsheet records for global accounts, ensuring 100% accuracy in documentation and digital communications.
- **Performance Optimization:** Mentored the broader support team on advanced features, driving a 20% increase in First Contact Resolution (FCR) rates.

Training Operations Lead & Executive Support — *De9mics Consults*

01/2023 – 06/2025 | Remote | Part-Time/Contract

- **Leadership:** Directed the design and implementation of IT training programs, conducting skill gap assessments to ensure team proficiency and service excellence.
- **Process Improvement:** Architected a centralized Knowledge Base and SOP framework for remote teams, resulting in a 25% reduction in onboarding time and a 15% improvement in First Response Time (FRT).
- **Virtual Assistance:** Provided high-level executive support, including global communication coordination, calendar management, and administrative workflow optimization.
- **Mentorship:** Facilitated training sessions and coached staff on new technology adoption, fostering a culture of continuous learning and high performance.

Technical Support Engineer – Power Platform — *TeKnowledge Nigeria*

04/2021 – 04/2023 | Hybrid

- **Case Management:** Orchestrated the resolution of 80+ complex technical tickets monthly, achieving a 91% CSAT score through diligent root cause analysis and technical documentation.
- **Workflow Automation:** Engineered rule-based logic and automated workflows using Power Automate, significantly increasing operational efficiency for B2B clients.
- **Knowledge Engineering:** Authored a comprehensive technical knowledge base documenting reproduction steps for complex technical implementations to streamline future resolutions.

IT Specialist — *Ephraim Concepts Nigeria Limited*

09/2019 – 04/2021 | On-Site

- **Team Leadership:** Managed a cross-functional project team of 4 to deliver technical solutions for major institutional clients, ensuring 100% adherence to quality standards.
- **Systems Administration:** Resolved critical system malfunctions and managed internal IT operations, supporting the company through a period of organizational scaling.
