ABOUT ME

Customer Success and Operations Specialist with over five years of experience managing enterprise accounts, leading onboarding and training programs, and using data to drive retention and process improvements. At GemCommerce, I maintained a 93% CSAT score while managing technical accounts for global merchants, and at De9mics Consults, I directed onboarding and training programs that improved team readiness and service delivery. I'm comfortable using data — tracking, Excel, and CRM records — to spot adoption gaps and recommend practical fixes. I bring strong relationship management, problem-solving, and a proactive approach to helping accounts succeed, and I'm looking for a customer success role where I can apply this directly to merchant growth.

CORE COMPETENCIES

- **Customer Success & Account Management:** B2B Relationship Management, Global Merchant Onboarding, Churn Mitigation, Product Feedback Loops, Customer Retention
- **Support Operations & Case Management:** SLA & KPI Management, CSAT/NPS Optimization, Ticket Lifecycle Management, Conflict De-escalation, Active Listening & Communication, First Contact Resolution
- **Virtual Assistance & Executive Support:** Global Communication Coordination, Calendar & Schedule Management, Administrative Workflow Optimization, High-Level Executive Support
- **Technical & Operational Leadership:** Escalation Management, Root Cause Analysis, SOP Development, Training Program Design, Skill Gap Assessment, Team Mentoring

PROFESSIONAL EXPERIENCE

GemCommerce | 07/2025 - 04/2026 | Remote

Customer Success Associate

- **High-Volume Support:** Managed a technical queue of **180+ tickets monthly**, consistently maintaining a **93% CSAT** score while independently resolving advanced technical issues for global merchants.
- **Record Keeping & Documentation:** Managed comprehensive data tracking and spreadsheet records for global accounts, ensuring accurate documentation and digital communications.
- **Performance Optimization:** Mentored the support team on advanced Shopify and GemPages page builder troubleshooting techniques, driving a **20% increase in First Contact Resolution (FCR) rates**.
- **Customer Retention & Process Improvement:** Partnered closely with product and engineering teams to escalate critical platform bugs and communicate technical feature requests, reducing recurring ticket volume.

De9mics Consults | 01/2023 - 06/2025 | Remote | Part-Time/Contract

Training Operations Lead & Executive Support

- **Leadership & Program Management:** Directed the design and implementation of **6 IT training programs for over 15 team members**, conducting skill gap assessments to ensure team proficiency and service excellence.
- **Virtual Assistance & Executive Support:** Provided high-level executive support—including global communication coordination, calendar management, and administrative workflow optimization—for **3 executives across 2 time zones, handling 5+ high-priority meetings weekly**.
- **Process & Support Optimization:** Built a centralized Knowledge Base and SOP framework for remote teams, helping new team members onboard faster and respond to customers more consistently.
- **Technology Adoption & Mentorship:** Facilitated training sessions and coached staff on Microsoft 365 and cloud tool adoption, reducing the number of internal support requests.
- **Data-Driven Operations & Reporting:** Tracked weekly training completion and attendee feedback using Excel, and shared the findings to improve later sessions.

Customer Success & Operations Specialist

PROFESSIONAL EXPERIENCE

TeKnowledge Nigeria | 04/2021 - 04/2023 | Hybrid

Technical Support Engineer - Power Platform

- **Case Management & Technical Support:** Resolved 80+ complex technical tickets monthly via phone and email, reaching out directly to customers who preferred voice support, and ensuring work met the company's quality standards.
- **Workflow Automation & Process Improvement:** Engineered rule-based logic and automated approval workflows using Power Automate, eliminating manual data entry and cutting approval **turnaround time by 40% for B2B clients**.
- **Knowledge Engineering:** Authored a comprehensive technical knowledge base documenting reproduction steps for complex technical implementations to streamline future resolutions.
- **Cross-Team Collaboration & Enablement:** Worked with solution architects and customer success teams on technical escalations, and mentored junior engineers on Power Platform diagnostics.
- **Ticket Data Analysis & Root Cause Identification:** Reviewed support ticket trends using Power Platform logs and Excel to spot recurring technical issues and cut repeat escalations.

Ephraim Concepts Nigeria Limited | 09/2019 - 04/2021 | On-Site

IT Specialist

- **Team Leadership:** Managed a cross-functional **project team of 4 to deliver technical solutions** for major institutional clients, ensuring work met the company's quality standards.
- **Systems Administration:** Resolved critical system malfunctions and managed internal IT operations, supporting the company through a period of organizational scaling.
- **Training & End-User Enablement:** Ran hands-on training for internal staff on new system rollouts and hardware setups, reducing repeat IT helpdesk requests.
- **Infrastructure Optimization:** Audited and improved network configurations and workstation setups to keep internal systems running reliably.
