PROFESSIONAL SUMMARY

Customer experience professional with over five years of experience answering customer inquiries, resolving complaints, and keeping accurate records across support, customer success, and IT service roles. At GemCommerce, I managed 180+ tickets monthly through Intercom while maintaining a 93% CSAT score for global merchants, staying accurate and calm under fast-paced, high-volume conditions. I listen carefully, de-escalate frustrated users, and know when to resolve an issue myself versus escalate it. I've supported customers across NOAM, APAC, and LATAM hours, and I'm comfortable adapting to night, weekend, and rotating shifts.

CORE COMPETENCIES

- **Support operations:** SLA and KPI management, CSAT/NPS, ticket lifecycle management, conflict de-escalation, first contact resolution, escalation management
- **Customer success:** B2B relationship management, global merchant onboarding, churn mitigation, product feedback loops, customer retention
- **Operations and training:** SOP and knowledge base development, training program design, skill gap assessment, team mentoring, executive support
- **Data and automation:** SQL, Power BI, Excel, Power Automate, root cause analysis, ticket trend reporting

PROFESSIONAL EXPERIENCE

Data Analyst Intern

HNG Tech | *Remote* | *Internship*

Apr 2026 - May 2026

- Cleaned and transformed raw datasets with Excel and SQL to prepare them for analysis.
- Analyzed real business scenarios to identify trends, bottlenecks and performance drivers.
- Built dashboards and data stories in Power BI and Excel for the projects listed below.

Customer Success Associate

Jul 2025 - Apr 2026

GemCommerce | *Remote*

- **High-volume support:** Managed a technical queue of 180+ tickets monthly via Intercom, consistently maintaining a 93% CSAT score while independently resolving advanced technical issues for global merchants.
- **Peer Support & Knowledge Sharing:** Helped newer colleagues work through advanced Shopify and GemPages page builder troubleshooting issues, contributing to a 20% increase in First Contact Resolution (FCR) rates.
- **Product feedback:** Escalated critical platform bugs and feature requests to product and engineering, reducing recurring ticket volume.
- **Records:** Kept accurate data tracking and spreadsheet records for global accounts.

Training Operations Lead and Executive Support

Jan 2023 - Jun 2025

De9mics Consults | *Remote* | *Part-time/Contract*

- **Training:** Designed and ran 6 IT training programs for 15+ team members, starting from skill gap assessments.
- **Office 365 Instructor:** Coached staff on Microsoft 365 and cloud tool adoption (volunteer, Feb 2023 - Mar 2025), reducing internal support requests.
- **Knowledge base:** Built a central knowledge base and SOP framework so new team members onboarded faster and answered customers more consistently.
- **Executive support:** Managed communications, calendars and admin workflows for 3 executives across 2 time zones, covering 5+ high-priority meetings a week.
- **Reporting:** Tracked weekly training completion and attendee feedback in Excel and used the findings to improve later sessions.

Technical Support Engineer, Power Platform

Apr 2021 - Apr 2023

TeKnowledge Nigeria | *Hybrid*

- **Case management:** Resolved 80+ complex technical tickets a month to the company's quality standards.

- **Automation:** Built rule-based logic and approval workflows in Power Automate, cutting approval turnaround by 40% for B2B clients.
- **Knowledge engineering:** Wrote a technical knowledge base documenting reproduction steps for complex implementations.
- **Collaboration and analysis:** Worked with solution architects and customer success teams on escalations, mentored junior engineers, and used Power Platform logs and Excel to find recurring issues and cut repeat escalations.

IT Specialist Sep 2019 - Apr 2021
Ephraim Concepts Nigeria Limited | *On-site*

- **Team leadership:** Led a project team of 4 delivering technical solutions for major institutional clients.
- **Systems administration:** Resolved critical system malfunctions and ran internal IT operations through a period of company growth.
- **User enablement:** Trained staff on new systems and hardware, and wrote manuals and the company's first centralized IT support database, reducing repeat helpdesk requests.
- **Recognition:** Named Staff of the Year, Dec 2020.

DATA ANALYTICS PROJECTS

Full files and write-ups at github.com/rhukhi

- **Nigeria 2026 Budget Analysis (Power BI):** Group project analyzing debt service, sector allocations and revenue credibility in the 2026 federal budget.
- **Northwind and Palladium Bank (Power BI, PostgreSQL):** Built a sales dashboard and designed a star schema for a bank database (HNG).
- **TradeZone E-commerce Analysis (PostgreSQL):** Cleaned a 7-table marketplace database, wrote 8 business queries and a management memo (HNG).
- **Product Catalogue Cleaning (Excel):** Deduplicated and fixed encoding in a 3,847-row catalogue and wrote SEO short titles.
- **Video Games Sales Analysis (Excel)**: Analyzed global sales by genre, publisher, region and critic score.
